First Office Action on the Merits

Specification

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 14-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 14 and 25, the phrase "such as" renders the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim 14, step b recites "addition of lithium hydride and transfer of the 25-hydroxy group into the lithium alcoholate and subsequent reduction of the nitrile group with lithium aluminum hydride". The language of the above phrase is confusing (especially the underlined phrase). The specification indicates the nitrile group of the cyanoethylether produced in step a) is reduced with a mixture of lithium hydride and lithium aluminum hydride (see page 9, lines 4-6). It is suggested that applicant rewrites step b) clearly defining the process step.

Claim 15 recites the phrase "FITC substituted tyrosine". The present specification discloses "FITC and substituted tyrosine". Correction is requested.

Claim 20 recites "3-amino propyl-25-hydroxy- or 3-amino propyl-1 α ,25-dihydroxy vitamin D" whereas the present specification discloses the 3-amino propyl ether derivatives of the above-mentioned compounds.

Claim 26 is in improper multiple dependent form because it does not refer to the dependent claims in the alternative.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 21-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Holick (WO 97/24127).

Art Unit: 1616

Holick teaches the production of non-radioactive vitamin D compounds and their use in assaying for the presence of vitamin D and its derivatives (see the entire article, especially pages 6-8; page 9, line 28 – page 10, line 24; claims 19-24). The method taught by the reference is encompassed by the instant claims.

Other Matters

6. Subtitles such as "Brief Description of Drawings" should be added to the specification to better conform to US practice.

Telephone Inquiry

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara P Badio, Ph.D. whose telephone number is 703-308-4595. The examiner can normally be reached on M-F from 7:30am-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jose Dees can be reached on 703-308-4628. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-4556 for regular communications and 703-308-4556 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1235.
